## BYOD Minimum Requirements

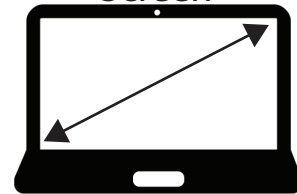

6hr  
Battery

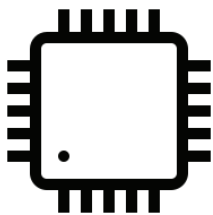

Wifi  
5GHz

9inch  
Screen

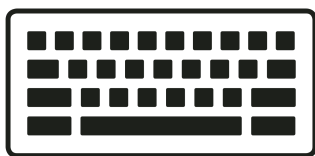

Memory  
4GB

BYOD  
*Bring Your Own Device*

Operating System  
Current

Keyboard and USB

**The BYOD programme may be new to you, but your device doesn't have to be.**

If you have an existing device and it meets the minimum specification requirements then you are welcome to use it at school.

If you do require the purchase of a new device it is recommended that you have this copy of the minimum requirements on hand as different operating systems and device types have different capabilities. These are the base features that are mandatory to all devices, but you may also want to consider the warranty, weight and protective features such as a hard case.

Please be advised that mobile phones, iPods and tablets without a usb port or a display smaller than 9" are not appropriate as a primary device for BYOD.
