

Year 7

My Experiences

To Future Year 7,

Gosford Highschool is a nurturing environment where as students with high potential in our learning, we strive to try our hardest with proud and effort!

But, besides from all that boring stuff, Gosford Highschool is fun and offers many representative opportunities for students who love athletic, sporting events such as volleyball tournaments with other schools or the annual carnivals, Gosford also provides an opportunity for students with creative thinking and leadership skills such as SRC, Art competitions and musicals!

I didn't immediately begin to realise and appreciate these bountiful amounts of opportunities until recently, when I collaborated with my friends to help make videos to introduce you to the school. Gosford Highschool students are so lucky to have been selected to go to a school where you have amazing opportunities to showcase your talented and gifted skills.

The teachers are dedicated to making sure you learn and have fun at the same time and you can make so many peers which is encouraging when a lot of you will be coming from a primary school without anyone else.

I look forward to meeting you in person next year!!!

Good Luck,

Lilla Peterson ;)

P.S. I used Canva for this document
and highly recommend using Canva
for school projects
